

## Product Specification Summary

### Sequencing Primers

Catalog Number	26-3000-21
Product Name	T7- Bluescript promoter primer; 25 ug
Size	25 ug
Description	22 mer
Component/Note	GTAATACGACTCACTATAGGGC

This T7 RNA polymerase primer is complementary to the conserved class III sequence. Sequencing data will be obtained for all templates containing the Class III T7 RNA polymerase promoter sequences. This primer in addition contains sequence complementary to Stratagenes's pBluescript plasmid flanking the T7 sequence. The product is supplied as a lyophilized powder, after reconstitution store at -20oC. Oligo purity is greater than 98% as determined by denaturing polyacrylamide gel electrophoresis.
