

Product Specification Summary

Genetic Tools & Reagents

Catalog Number	08-0021-02
Product Name	Omni-Array™ mRN Antisense strand amplification kit
Size	1 Kit
Description	Omni-Array mRNA Antisense strand amplification kit

The Omni-Array system amplifies mRNA from as little as 2 ng. The kit offers the user two protocols for amplification of antisense strand RNA depending on the initial amount of total RNA present. A single round protocol is sufficient to generate 10 ug of antisense strand RNA from 100 ng of total RNA. When the initial amount of total RNA is less than 5 ng, a two round amplification protocol is recommended.
